SUMMARY

Software Engineer with 3 years of experience in the IT Industry building products and processes that suit the teams, in general and users, in particular.

SKILLS

- Java
- Selenium
- Docker
- Jenkins
- SQL
- API Testing
- TestNG/JUnit(Java)
- Azure Devops
- Agile Methodologies
- SDLC
- Rest Assured

EXPERIENCE

Acidaes Solutions | Software Engineer

Nov, 2021 – Mar, 2024

- Developed Selenium WebDriver test scripts in Java, utilizing Page Object Model (POM) and design patterns for maintainable code.
- Automated 500+ test cases and used to maintain over 1000 test cases using Selenium WebDriver and Maven.
- Managed project dependencies in Maven pom.xml, including Selenium WebDriver, TestNG, and other libraries.
- Automated test execution via Jenkins, achieving 80% reduction in manual effort.
- Utilized Docker containers to configure test environments, enhancing testing flexibility and scalability.
- Contributed to version control with Git, facilitating collaboration and versioning of automation code.
- Conducted regression testing, ensuring software stability post implementation, resulting in 90% improvement in defect detection.

Aximo Infotech | QA Engineer

Jan, 2021 – Aug, 2021

- Designed detailed test cases based on requirements and design specifications.
- Executed test cases manually, inputting test data and validating results.
- Reported defects or issues using a defect tracking system with clear information in MS Excel.
- Executed test cases manually to validate the functionality of the software.
- Maintain documentation including test plans, test cases, test execution results, and defect reports.

EDUCATION

Masters of Computer Applications (MCA)

Institute of Technology and Science | Ghaziabad, Uttar Pradesh | 2021

Bachelor of Science – Computer Science (BSc CS)

VBS Purvanchal University | Varanasi, UP | 2018

Intermediate

Aditya Birla Intermediate College | Sonbhadra, UP | 2015
